10 General considerations for development within rural zones

- (1) The Council shall not consent to the carrying out of development on land within Zone No 1 (a) unless it has taken into consideration, if relevant, the effect of the carrying out of that development on:
 - (i) the present use of the land, the potential use of the land for the purposes of agriculture and the potential of any land which is prime crop and pasture land for sustained agricultural production,
 - (ii) vegetation, timber production, land capability (including soil resources stability) and water resources (including the quantity and stability of water courses and ground water storage and riparian rights),
 - (iii) the future recovery of known or prospective areas of valuable deposits of minerals, coal, petroleum, sand, gravel or other extractive materials,
 - (iv) the protection of areas of significance for nature conservation or of high scenic or recreational value, and places and buildings of archaeological or heritage significance, including Aboriginal relics and places,
 - (v) the cost of providing, extending and maintaining public amenities and services to the development, and
 - (vi) future expansion of settlements in the locality.
- (2) As well as the matters referred to in sub-clause (1), the Council shall take into consideration the relationship of the proposed development to development on adjoining land and on other land in the locality.
- (3) Subclause (1) does not apply to development being:
 - (a) an addition to a building or work,
 - (b) development ancillary to a purpose for which development may be carried out with the consent of the Council under this plan, or
 - (c) the erection of a dwelling house on an allotment of land created in accordance with this plan for the purposes of a dwelling.

11 Subdivision of land generally

- (1) A person shall not subdivide land to which this plan applies except with the consent of the Council.
- (2) The Council shall not consent to an application to subdivide land within Zone No 1 (a) unless it has obtained all relevant information in relation to, and made an assessment of:
 - (a) the primary purpose for which each allotment to be created by the subdivision is intended to be used,
 - (b) whether any allotment to be created by the subdivision is intended to be used primarily for the purposes of agriculture,

- (c) whether a dwelling is intended to be erected on any allotment to be created by the subdivision and the approximate location of any such dwelling.

12 Subdivision for the purposes of agriculture in Zone No 1 (a)

- (1) This clause applies to land within Zone No 1 (a).
- (2) The Council may consent to the creation of an allotment of any area if the Council is satisfied it will be used for the purposes of agriculture.

 - (a) the purpose for which the allotment is to be used involves the supply of goods or services for which there is a demand in the locality,
 - (b) no other land in the locality could reasonably be used for that purpose, and
 - (c) the level of demand for goods or services which are to be supplied from the allotment and the extent to which that allotment is proposed to be used to meet that demand justifies the creation of the allotment notwithstanding its agriculture value.

14 Subdivision for intensive agriculture pursuits in Zone No 1 (a)

The Council shall not consent to an application to subdivide land within Zone No 1 (a) where any allotment to be created is to be used primarily

for the purpose of intensive agricultural pursuits unless, in the opinion of the Council:

19 Rural workers' dwellings

Nothing in this plan shall prevent a person, with the consent of the Council, from erecting additional dwelling-houses on land which is within Zone No 1 (a) and is not vacant, if:

- (a) it is satisfied that the needs of existing agriculture genuinely require that rural workers reside on the land,
- (b) the additional dwellings are clustered in a location where they will not impair the suitability of the land for agriculture,
