Community Strategic Plan welcome

**Mayor
John Coulton**

It is our pleasure to present you with Council's updated Community Strategic plan 2014-2024. The Community Strategic Plan is the community's plan with Council as custodian; it will guide future decisions which will benefit our community as a whole and is a vision for both Council and our community.

Development of this plan has been inspired by consultation with you, our community, and by changes in legislation which offer new scope to local governments in planning for the future.

In line with Council's Community Engagement Strategy and as part of Council's recent consultation and review process for this plan, public comment was sought regarding the current level of services through avenues including focus group meetings, a shire wide community survey, as well as information provided to all rate payers regarding a proposed special rate variation. Council will continue to review and update our planning and operational activities annually while we strive to achieve the desired outcomes and exceed our community's expectations.

The main service delivery priorities in this Community Strategic Plan are:

A healthy and cohesive community (Social);

Building the business base (Economy);

An environmentally responsible shire (Environment); and

Proactive Regional and local leadership (Organisation)

These strategic outcomes provide a focus for action and are a set of integrated themes that provide for a socially and economically sustainable Gwydir Shire community.

In September, 2014 the NSW State Government announced guidelines with a view to strengthening communities and ensuring all NSW councils are "Fit for the Future". (FFTF). The proposed package includes a new Local Government Act to be phased in from 2016-17 that will focus on integrated planning and reporting; a new role for the NSW Auditor-General; a review of the rating system; a review of the regulatory burden on councils; a recognition that flexible structures should be available; legislative provision for Joint Organisations; and Financial Assistance Grants distribution.

Gwydir Shire Council sees this reform as an opportunity. We are known as a small rural council that is continually 'punching above its weight'. We will continue to work to meet the needs of our community, while maintaining awareness of the impact of future changes in the industry.

We have great pleasure in presenting the Gwydir Shire council 2024 Community Strategic Plan.

**General Manager
Max Eastcott**

ABOUT THIS PLAN

Why do we plan?

All councils are required to develop short, medium and long term plans under the NSW Integrated Planning and Reporting (IPR) Framework. The Community Strategic Plan is the highest order plan within this hierarchy that a council and its community will prepare. Its purpose is to identify the community's main priorities and aspirations for the future, and to plan strategies for achieving these goals. In doing this, the planning process considers the issues and pressures that may affect the community, and the level of resources that will realistically be available to achieve its aspirations.

The Community Strategic Plan is supported by subordinate plans: a Resourcing Strategy that includes an Asset Management Strategy, Long Term Financial Plan and Workforce Management Plan. As well as a Delivery Program and Operational Plan which outline activities that are the responsibility of council in achieving our community vision.

While council has a custodial role in initiating, preparing and maintaining the plan on behalf of the community, it is not wholly responsible for its implementation. Other partners, such as Federal and State Agencies, and community groups are also responsible for the delivery of the plan. The aim of the plan is to encourage council, the community and other agencies to work together to deliver on our vision for the future.

Council commenced developing this CSP in 2014 with an internal audit of current service levels. Council's Community Engagement Strategy was reviewed in readiness for community consultation where particular emphasis was made to engage hard to reach communities and demographic profiles. Council then held a round of Focus Groups aimed at covering the various demographic profiles in our shire. The themes for the Focus Groups included:

- Special Rate Variation
- Fees and Charges
- Service delivery

In addition to the Focus Groups, Council developed a community survey which was distributed to 2,200 households in the shire and made available via Council's webpage and Facebook page. A letter outlining Council's proposed rate variation was also distributed to all ratepayers seeking feedback.

REVIEWING THE PLAN

This version of the Community Strategic Plan is an update of our original Community Strategic Plan which was first adopted by council in June 2012. In September 2012, the Gwydir Shire Council elections were held and, in accordance with IPR legislation, a review of the adopted plan was required.

It was important that the review process be respectful to, and build upon, the community input to date and to ensure that the plan remains current and representative.

Process timeline – How did we get here?

Provide an overview of the direction local government has been moved in?

2011 Destination 2036 – Councils came together to plan how local government could meet the challenges of the future

2012 TCorp Sustainability Review – Conducted a comprehensive, independent analysis into the financial sustainability of every Council in NSW

2012 Local Government Infrastructure Audit – Provided information in relation to the Infrastructure backlog in NSW and identified infrastructure needs by area and asset type.

2012-14 Independent Local Government Review – Conducted wide consultation to develop key recommendations regarding local government structures, governance models and boundary changes.

2012-14 Local Governments Acts Taskforce – Looked at ways to modernise legislation, to ensure that it would meet the future needs of councils and communities.

2014 Fit For The Future – Local Government – Will lay the foundations for a stronger system of local government and stronger local communities

Our community often calls for more action in the areas of health, community safety, education, transport and drought management. Delivering on community expectations in these areas however, cannot occur in isolation and must recognise a broader regional, national and global context. This means understanding our role and networks with other communities, industries and state wide partners.

The State Government has developed a State Plan – NSW 2021, which has a series of strategic goals that will assist with the delivery of community expectations at a state and regional level, while enabling coordination and alignment at a local level.

The Community Strategic Plan has been developed with regard to the State Plan and associated Regional Plans.

Monitoring the success of this plan

The purpose of planning in this way is to bring about positive change within our community. It is therefore important to regularly check whether or not council, and all our partners including the community is making progress towards achieving the goals set in our Community Strategic Plan.

We will be regularly asking these questions:

Are we achieving results and improvements within timeframes?

Are our partners accountable and doing what they said they would do?

What can we do better?

To do this, council will monitor the effectiveness of the Community Strategic Plan through continued focus group consultations and feedback through social media and the Council website. This will help to measure issues of relevance to our community regardless of whether council has direct responsibility for them.

The success of implementing the plan is reported every four years in an end of council term report that shows our progress towards fulfilling the needs of our community. The plan is also fully reviewed and endorsed every four years in line with local government elections to ensure it remains relevant to our community's changing circumstances.

Councils role in making the plan work?

Council has multiple roles to play in delivering the Community Strategic Plan. Specific activities that council will undertake are listed in its Delivery Program and Operational Plan. Broadly councils role includes being:

A **leader**: to plan and provide direction through policy and practices.

A **provider**: of physical infrastructure and essential services.

A **regulator**: of development, community health and safety, and the environment.

A **partner**: with community, private and government organisations.

A **supporter**: to support and advocate for the community it represents.

A **promoter**: of the Gwydir Shire as a place to live, visit and invest.
