Public: Mrs N Williams (*Bingara Advocate and Warialda Standard*)

Visitor: Nil

This is page number 1 of the minutes of the Public Infrastructure Committee held on Thursday 9 March 2017

Chairman

DISCLAIMER

No responsibility whatsoever is implied or accepted by the Gwydir Shire Council for any act, omission or statement or intimation occurring during and Council or Committee meetings.

The Council disclaims any liability for any loss whatsoever and howsoever caused arising out of reliance by any person or legal entity on any such act, omission or statement or intimation occurring during Council or Committee meetings.

Any person or legal entity who acts or fails to act in reliance upon any statement, act or omission made in a Council or Committee meeting does so at that person's or legal entity's own risk.

In particular and without derogating in any way from the broad disclaimer above, in any discussion regarding any planning application or application for a licence, any statement or intimation of approval made by any member or officer of the Council during the course of any meeting is not intended to be and is not taken as notice of approval from the Council.

Gwydir Shire Council wishes to advise that any plans or documents contained within this agenda may be subject to copyright law provisions and that the express permission of the copyright owner(s) should be sought prior to their reproduction.

Members of the public should note that no action should be taken on any item discussed at a Council or Committee meeting prior to written advice on the resolution of council being received.

Agendas and minutes are available on the Council's website

Item 1 Monthly Technical Services Report - February 2017

FILE REFERENCE

DELIVERY PROGRAM

GOAL: 5. Organisational Management

OUTCOME: 5.1 CORPORATE MANAGEMENT

STRATEGY: 2.1.1 Plan for and develop the right assets and infrastructure - TS -external

AUTHOR Technical Services Director

DATE 1 March 2017

STAFF DISCLOSURE OF INTEREST Nil

BACKGROUND

The monthly Technical Services report has been identified by Council as the process of reporting the activities carried out monthly by the Technical Services Department.

1. TECHNICAL SERVICES AND ADMINISTRATION

Technical Services infrastructure, planning, design and surveys were carried out in-house. The Technical Services staff continued to provide customer service to the Gwydir Shire residents.

1.1 North West Weight of Loads Committee

The North West Weight of Loads Committee is scheduled to meet Monday 6th March 2017 at the Living Class Room Bingara.

1.2 Emergency Services

Technical Services are currently working with the Rural Fire Service on applying for the 2017/18 Local Government Hazard Reduction funding.

Works such as fire breaks and clearing around the back of Naroo, Warialda High School and a slashing program around the townships of Warialda, Bingara, North Star and Croppa Creek need to be registered for this funding.

Also this year Council have identified locations that require works from a Tritter Machine (Excavator with Mulcher implement) for the Copeton Dam and Killarney Gap Road. These proposals have been included in the 2017/18 bidding application.

Water Drilling Contractors were successful in finding water at that Stonefield Rural Fire Station but unfortunately after attempting to bore down 610 feet were not able to locate water at the Warialda Aerodrome. Consideration and further investigation is occurring to decide if a second attempt is feasible.

This is page number 4 of the minutes of the Public Infrastructure Committee held on Thursday 9 March 2017

Chairman

Council has submitted a funding application to the Rural Fire Service for the installation of an information shelter, as shown in the picture below, to be erected in the main street of Warialda to display the Rural Fire Service Community Protection Plans as part of the Council/Rural Fire Service community consultation program regarding the risks of high fire zones.

Example of shelter requested

2. ENGINEERING SERVICES

2.1 Construction/ Rehabilitation – Regional and Local Roads

Southern construction crews have started on the gravel resheeting program on Towarra Road, Bingara. From here crews will start works on White Street in Bingara where the current alignment of the road will be shifted away from the residential houses on the northern side. This will not only straighten up the alignment of the road but will also help with the current drainage issues in front of the houses and the steep banks/batters. These works are programmed to take place throughout March, giving southern crews a chance to trial the newly purchased grader with grade control.

Northern construction crews have started works on Baroma Downs Road, near Hueys Arm Creek Bridge. This will involve stabilising approximately 2.5km of pavement with lime, overlaying the existing pavement with 150mm of new material and then incorporating all material by mixing pavement at 200mm deep using a mobile pulveriser and finishing off with a double double seal.

Currently crews are finalising works completed on the bridge approaches, which involved layers of gabion baskets and no fines concrete at a sub-soil level to prevent any further failure in the bridge approaches. A side track has been constructed beside the bridge for continued ease of traffic flow around the works site while works are being undertaken on the bridge. Stabilising works are programmed to begin within the next two weeks, where crews will then import the material required for the base layer. These works are programmed to continue throughout March and April.

This is page number 5 of the minutes of the Public Infrastructure Committee held on Thursday 9 March 2017

Chairman

2.2 Works – Local, Regional and State Roads

Maintenance Grading

SR65 Munsies Road, SR16 Trevallyn Road

Gravel Resheeting

SR16 Trevallyn Road, SR13 Oregon Road, SR63 Gil Gil Creek Road, SR65 Munsies Road, SR45 Boundary Creek Road, SR238 Talula Road

Bitumen Patching

MR133 Killarney Gap Road, MR63 Cobbadah Road, HW12 Gwydir Hwy, RR7705 North Star Road, RR63 Warialda Road, SR4 Baroma Downs Road, SR14 Mosquito Creek Road, SR7 Croppa Creek Road, SR5 Croppa Moree Road, MR63 Allan Cunningham Road.

Miscellaneous Work

HW12 Gwydir Highway – intersection sweep and drainage repairs

SR5 Croppa Moree Road – sign maintenance

Cunningham Street, Bingara kerb and gutter

Slashing

MR63 Allan Cunningham Road , RR7705 North Star Road, RR63 Warialda Road, MR462 Bruxner Highway, MR132 McIntyre Road, MR133 Killarney Gap Road

Private Works for Councillors and Staff

Nil Report

Self Help Program

Nil Report

2.3 Roads Maintenance Council Contract – Works Orders issued by RMS

All Work Orders issued by RMS are quality assurance schedule of rates projects carried out by Council staff under the Roads Maintenance Council Contract with Roads and Maritimes Services.

Maintenance crews are currently undertaking works on the “Holden Street Culvert Extension”, just west of Warialda. This involves the boxing out and pouring of the base slab and wing-wall footings which will be left to set for at least two (2) weeks. From here the precast culvert units will be placed onto the base and the wing-walls will be set out and poured. The units will then be covered with material and tied into the existing shoulder and landscape. These works are planned to continue throughout March.

Approximately two thirds of the programmed heavy patching for State Roads has been completed with the remainder to take place on HW12 Gwydir Highway throughout April/May. The remaining heavy patching will be undertaken within segments that are programmed to be resealed next financial year. All State Roads’ reseals have been completed for this financial year, with line marking to take place early in March.

This is page number 6 of the minutes of the Public Infrastructure Committee held on Thursday 9 March 2017

Chairman

All other ordered works have been completed for this year, leaving only routine works to be completed, including guardrail replacement, drainage structure maintenance, routine slashing and bitumen works, and possible shoulder grading.

2.4 Shire Roads 2016-2017 Capital Works Program

Attachment 1

2.5 Other Services

2.5.1 Street services continue to be maintained for vehicular, pedestrian and public conveniences.

2.5.2 Storm water drainage facilities continue to be maintained.

2.5.3 Aerodromes at Warialda and Bingara continue to be maintained and inspections are done monthly.

2.5.4 Existing quarry sources are continually being utilised and future sources are being investigated as time permits with other competing projects.

2.5.5 The radio and television towers continued to be maintained.

3. DESIGN AND ASSET SERVICES

Survey, design and soil testing is continuing for the 2016-2017 works programs. Progress is as follows:

Warialda High Productivity Vehicle Bypass

Work is continuing with refinement of the bypass design following receipt of a flora and fauna study of the area. Meetings have been held to discuss potential impacts on flora and fauna as a result of the project and to determine measures to minimise disturbances.

End of Year Capitalisation

Completed capital projects across all departments are being capitalised as part of the end of financial year process in preparation for the annual financial statements.

Elcombe Road – Causeway Extensions

Design is in progress for the extension of three (3) causeways along Elcombe Road deficient in width.

GIS continues with a variety of projects, including the following

- The integration of GIS data with Council's Authority system
- Map creation for internal and external customers
- Internal Queries – query on land status in Gravesend; query on coordinates for gravel pit
- Processing of NHVR road train permits within the LGA
- The integration of Council's GIS and asset inventories
- Review of applications to close crown roads.

This is page number 7 of the minutes of the Public Infrastructure Committee held on Thursday 9 March 2017

Chairman

CONCLUSION

The activities carried out by the Technical Services Department are in line with the 2016/2017 Management Plan and otherwise as directed.

CONSULTATION

Consultation is carried out within the Technical Services Department during the monthly Technical Services team meetings and other relevant persons.

POLICY IMPLICATIONS Policy implications are those relating to the 2016/2017 Management Plan and the Technical Services Policies of Gwydir Shire Council.

FINANCIAL IMPLICATIONS The activities carried out by the Technical Services Department are in line with the 2016/2017 Management Plan.

OFFICER RECOMMENDATION

THAT the monthly Technical Services report for February 2017 be received

ATTACHMENTS

AT- Capital Works Program 2016 - 17

COMMITTEE RECOMMENDATION TO COUNCIL:

THAT the monthly Technical Services report for February 2017 be received.

Chairman

Chairman

Preliminary work for the installation of an additional dump point in Bingara commenced during February with a small sewer pump station being installed at Cunningham Park. The sewer pump station will collect waste from the dump point and Cunningham Park public toilets and pump the waste back to the sewer system at a point in the Riverside Caravan Park. The dump point along with a coin operated water dispensing system is estimated to be completed by the end of March.

Staff attended to 15 service line repairs, four (4) water main breaks, one (1) new service line in Gravesend, two (2) sewer blockages and extended the sewer line across Copeton Dam Road to link up the two bridges in Bingara during February.

Water meters will be read the second week of March.

Bingara Showground

The Showground continues to be maintained.

The annual Bingara races were held in January.

Plant and Workshop

1 Plant Replacement – complete for 2016-2017

2 Workshop

Service and repairs of Council's fleet has been undertaken during February.

Gantries for the three (3) sewerage pump stations are currently being fabricated in the Warialda workshop. Registration checks are currently being undertaken for fleet with common expiry date of 1st May 2017.
